American International Group, Inc. **Revised Historical Segment Results Cautionary Statement Regarding Forward-Looking Information**

This Financial Supplement may include, and officers and representatives of American International Group, Inc. (AIG) may from time to time make and discuss, projections, goals, assumptions and statements that may constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These projections, goals, assumptions and statements are not historical facts but instead represent only a belief regarding future events, many of which, by their nature, are inherently uncertain and outside AIG's control. These projections, goals, assumptions and statements include statements preceded by, followed by or including words such as "will," "believe," "anticipate," "expect," "intend," "focused on achieving," "view," "target," "goal" or "estimate." These projections, goals, assumptions and statements may relate to future actions, prospective services or products, future performance or results of current and anticipated services or products, sales efforts, expenses, the outcome of contingencies such as legal proceedings, anticipated organizational, business or regulatory changes, the effect of catastrophes, such as the COVID-19 crisis, and macroeconomic events, anticipated dispositions, monetization and/or acquisitions of businesses or assets, or successful integration of acquired businesses, management succession and retention plans, exposure to risk, trends in operations and financial results.

It is possible that AIG's actual results and financial condition will differ, possibly materially, from the results and financial condition indicated in these projections, goals, assumptions and statements. Factors that could cause AIG's actual results to differ, possibly materially, from those in the specific projections, goals, assumptions and statements include:

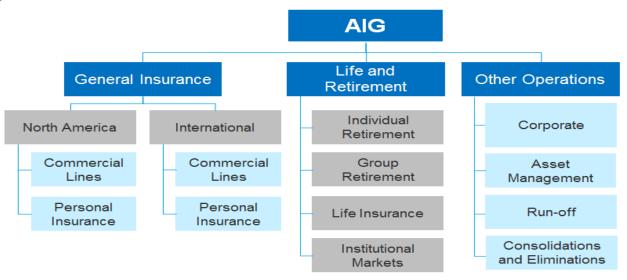

- the adverse impact of COVID-19, including with respect to AIG's business, financial condition and results of operations;
- changes in market and industry conditions, including the significant global economic downturn, general market declines, prolonged economic recovery and disruptions to AIG's operations driven by COVID-19 and responses thereto, including new or changed governmental policy and regulatory actions;
- the occurrence of catastrophic events, both natural and man-made, including COVID-19, other pandemics, civil unrest and the effects of climate change;
- AIG's ability to successfully dispose of, monetize and/or acquire businesses or assets or successfully integrate acquired businesses, including any separation of the Life and Retirement business from AIG and the impact any separation may have on AIG, its businesses, employees, contracts and customers;
- AIG's ability to effectively execute on AIG 200 transformational programs designed to achieve underwriting excellence, modernization of AIG's operating infrastructure, enhanced user and customer experiences and unification of AIG;
- the impact of potential information technology, cybersecurity or data security breaches, including as a result of cyber-attacks or security vulnerabilities, the likelihood of which may increase due to extended remote business operations as a result of COVID-19;
- disruptions in the availability of AIG's electronic data systems or those of third parties;
- availability and affordability of reinsurance;
- the effectiveness of our risk management policies and procedures, including with respect to our business continuity and disaster recovery plans;
- nonperformance or defaults by counterparties, including Fortitude Re;
- changes in judgments concerning potential cost-saving opportunities;
- concentrations in AIG's investment portfolios;
- changes to the valuation of AIG's investments;
- changes to our sources of or access to liquidity;
- actions by credit and financial strength rating agencies;
- changes in judgments and assumptions concerning insurance underwriting and insurance liabilities;
- the effectiveness of strategies to recruit and retain key personnel and to implement effective succession plans;
- the requirements, which may change from time to time, of the global regulatory framework to which AIG is subject;
- significant legal, regulatory or governmental proceedings;
- changes in judgments concerning the recognition of deferred tax assets and the impairment of goodwill; and
- such other factors discussed in AIG's Form 8-K filed on February 1,2021, Part I, Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) and Part II, Item 1A. Risk Factors in AIG's Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2020, Part I, Item 2. MD&A and Part II, Item 1A. Risk Factors in AIG's Quarterly Report on Form 10-O for the quarterly period ended June 30, 2020, Part I, Item 2, MD&A in AIG's Quarterly Report on Form 10-O for the quarterly period ended March 31, 2020, and Part I, Item 1A. Risk Factors and Part II, Item 7. MD&A in AIG's Annual Report on Form 10-K for the year ended December 31, 2019.

AIG is not under any obligation (and expressly disclaims any obligation) to update or alter any projections, goals, assumptions or other statements, whether written or oral, that may be made from time to time, whether as a result of new information, future events or otherwise.

American International Group, Inc. Revised Historical Segment Results Resegmentation Overview Segment Reporting

In the fourth quarter of 2020, the Company's chief operating decision makers modified their view of the Company's businesses and how they allocate resources and assess performance. As such, we modified the presentation of our segments as follows:

General Insurance

General Insurance continues to be reported with the following operating segments:

- North America primarily includes insurance businesses in the United States, Canada and Bermuda, and our global reinsurance business, AIG Re.
- International includes regional insurance businesses in Japan, the United Kingdom, Europe, Middle East and Africa (EMEA region), Asia Pacific, Latin America and Caribbean, and China. International also includes the results of Talbot Holdings, Ltd as well as AIG's global specialty business, which is now entirely reflected in International as part of the resegmentation effort.

Additionally, our chief operating decision makers determined the performance review of these operating segments to be based on the underwriting profit of the segments.

Life and Retirement

Life and Retirement continues to be reported with the following operating segments:

- Individual Retirement consists of fixed annuities, fixed index annuities, variable annuities and retail mutual funds.
- Group Retirement consists of group mutual funds, group annuities, individual annuity and investment products, and financial planning and advisory services.
- Life Insurance primary products in the U.S. include term life and universal life insurance. International operations include distribution of life and health products in the UK and Ireland. Certain run-off life insurance portfolios previously reported in our Legacy segment have been realigned into the Life Insurance operating segment.
- Institutional Markets consists of stable value wrap products, structured settlement and pension risk transfer annuities, corporate- and bank-owned life insurance and guaranteed investment contracts (GICs). The run-off High Net Worth (private placement variable universal life and private placement variable annuity) and assumed structured settlement portfolios previously reported in our Legacy segment have been realigned into the Institutional Markets operating segment.

In addition to the operating segment realignment above, Life & Retirement has made several clarifying disclosure changes that better reflect the way in which the business is evaluated. These changes include moving the life retained asset portfolio from Individual Retirement operating segment to Life operating segment, moving supplementary contracts from variable and Index annuities within the Individual Retirement operating segment, combining Life Surrender and Lapse rates for Independent and Career Distribution channels, separating variable annuity and Index annuity surrender rates and redefining Group Retirement's Assets Under Administration to include amounts from VALIC Financial Advisor broker/dealer.

On October 26, 2020, AIG announced its intention to separate its Life and Retirement business from AIG. No decisions have yet been made regarding the structure of the proposed separation. In addition, any separation transaction will be subject to the satisfaction of various conditions and approvals, including approval by the AIG Board of Directors, receipt of insurance and other required regulatory approvals, and satisfaction of any applicable requirements of the Securities and Exchange Commission. No assurance can be given regarding the form that a separation transaction may take or the specific terms or timing thereof, or that a separation will in fact occur.

American International Group, Inc. Revised Historical Segment Results Resegmentation Overview Other Operations

Other Operations has been reorganized to include the following:

- Corporate primarily includes income from assets held by AIG Parent and other corporate subsidiaries; general operating expenses not attributable to AIG reporting segments; certain compensation expenses attributable to Other Operations and reporting segments; amortization of value of distribution network acquired related to the Validus and Glatfelter acquisitions; and Interest expense attributable to AIG long-term debt as well as debt associated with consolidated investment entities.
- Asset Management –primarily includes our institutional asset management business and results of our consolidated investment entities.
- Run-Off primarily includes certain exited or discontinued property and casualty product lines, policy forms or distribution channels including Blackboard, which was placed into run-off at the end of March 2020 and investment classes that we have placed into run-off including holdings in direct investments as well as certain investments in global capital markets and global real estate. Lastly, the historical results of our legacy insurance lines ceded to Fortitude Re are included in our Other Operations results.
- Consolidations and Eliminations primarily includes the elimination of intercompany transactions incurred in the normal course of business.

Reclassification

Other income reclassification - For the period ended December 31, 2018, we have reclassified investment income from our non-insurance subsidiaries in Net investment income instead of Other income to be consistent with our elected prospective treatment beginning in the first quarter of 2019.

Gains /losses on reinsurance agreement reclassification - The portion of the returns on the funds withheld balance under a modified coinsurance treaty that is attributable to the unrealized gain or loss was reclassified to be excluded from adjusted pretax income consistent with current reporting on other similar assets.

Changes in the fair value of equity securities reclassification - For the period ended December 31, 2018, we have excluded changes in the fair value of equity securities from adjusted pretax income to be consistent with our elected prospective treatment beginning in the first quarter of 2019 due to a change in accounting principle.

American International Group, Inc. Revised Historical Segment Results Non-GAAP Financial Measures

Throughout this Financial Supplement, we present our financial condition and results of operations in the way we believe will be most meaningful and representative of our business results. Some of the measurements we use are "Non-GAAP financial measures" under Securities and Exchange Commission rules and regulations. GAAP is the acronym for generally accepted accounting principles in the United States. The non-GAAP financial measures we present may not be comparable to similarly-named measures reported by other companies.

We use the following operating performance measures because we believe they enhance the understanding of the underlying profitability of continuing operations and trends of our business segments. We believe they also allow for more meaningful comparisons with our insurance competitors. When we use these measures, reconciliations to the most comparable GAAP measure are provided on a consolidated basis.

Adjusted Pre-tax Income (APTI) is derived by excluding the items set forth below from income from continuing operations before income tax. This definition is consistent across our segments. These items generally fall into one or more of the following broad categories: legacy matters having no relevance to our current businesses or operating performance; adjustments to enhance transparency to the underlying economics of transactions; and measures that we believe to be common to the industry. APTI is a GAAP measure for our segments. Excluded items include the following:

- changes in fair value of securities used to hedge guaranteed living benefits;
- changes in benefit reserves and deferred policy acquisition costs (DAC), value of business acquired
 (VOBA), and sales inducement assets (SIA) related to net realized capital gains and losses;
- · changes in the fair value of equity securities;
- net investment income on Fortitude Re funds withheld assets post deconsolidation of Fortitude Re;
- following deconsolidation of Fortitude Re, net realized capital gains and losses on Fortitude Re funds withheld assets held by AIG in support of Fortitude Re's reinsurance obligations to AIG (Fortitude Re funds withheld assets):
- · loss (gain) on extinguishment of debt;
- all net realized capital gains and losses except earned income (periodic settlements and changes in settlement accruals) on derivative instruments used for non-qualifying (economic) hedging or for asset replication. Earned income on such economic hedges is reclassified from net realized capital gains and losses to specific APTI line items based on the economic risk being hedged (e.g. net investment income and interest credited to policyholder account balances);
- · income or loss from discontinued operations;

- net loss reserve discount benefit (charge);
- pension expense related to a one-time lump sum payment to former employees;
- income and loss from divested businesses;
- non-operating litigation reserves and settlements;
- restructuring and other costs related to initiatives designed to reduce operating expenses, improve
 efficiency and simplify our organization;
- the portion of favorable or unfavorable prior year reserve development for which we have ceded the risk under retroactive reinsurance agreements and related changes in amortization of the deferred gain;
- · integration and transaction costs associated with acquiring or divesting businesses;
- losses from the impairment of goodwill; and
- non-recurring costs associated with the implementation of non-ordinary course legal or regulatory changes or changes to accounting principles.

Adjusted After-tax Income attributable to AIG common shareholders (AATI) is derived by excluding the tax effected adjusted pre-tax income (APTI) adjustments described above, dividends on preferred stock, and the following tax items from net income attributable to AIG:

- deferred income tax valuation allowance releases and charges;
- · changes in uncertain tax positions and other tax items related to legacy matters having no relevance to our current businesses or operating performance; and
- net tax charge related to the enactment of the Tax Cuts and Jobs Act (Tax Act);

and by excluding the net realized capital gains (losses) and other charges from noncontrolling interests.

Book Value per Common Share, Excluding Accumulated Other Comprehensive Income (AOCI) adjusted for the cumulative unrealized gains and losses related to Fortitude Re's Funds Withheld Assets and Deferred Tax Assets (DTA) (Adjusted Book Value per Common Share) is used to show the amount of our net worth on a per-common share basis after eliminating items that can fluctuate significantly from period to period including changes in fair value of AIG's available for sale securities portfolio, foreign currency translation adjustments and U.S. tax attribute deferred tax assets. These measures also eliminate the asymmetrical impact resulting from changes in fair value of our available for sale securities portfolio wherein there is largely no offsetting impact for certain related insurance liabilities. In addition, we adjust for the cumulative unrealized gains and losses related to Fortitude Re's Funds Withheld Assets since these fair value movements are economically transferred to Fortitude Re. We exclude deferred tax assets representing U.S. tax attribute unrealized to net operating loss carryforwards and foreign tax credits as they have not yet been utilized. Amounts for interim periods are estimates based on projections of full-year attribute utilization. As net operating loss carryforwards and foreign tax credits included in these book value per common share metrics. Adjusted Book Value per Common Share is derived by dividing Total AIG common shareholders' equity, excluding AOCI adjusted for the cumulative unrealized gains and losses related to Fortitude Re's Funds Withheld Assets, and DTA (Adjusted Common Shareholders' Equity), by total common shares outstanding. The reconciliation to book value per common share, the most comparable GAAP measure, is presented on page 67 herein.

Book Value per Common Share, Excluding Goodwill, Value of Business Acquired (VOBA), Value of Distribution Channel Acquired (VODA), Other Intangible Assets, AOCI adjusted for the cumulative unrealized gains and losses related to Fortitude Re's Funds Withheld Assets, and Deferred Tax Assets (DTA) (Adjusted Tangible Book Value per Common Share) is used to provide more accurate measure of the realizable value of shareholder on a per-common share basis. Adjusted Tangible Book Value per Common Share is derived by dividing Total AIG common shareholders' equity, excluding intangible assets, AOCI adjusted for the cumulative unrealized gains and losses related to Fortitude Re's Funds Withheld Assets, and DTA (Adjusted Tangible Common Shareholders' Equity), by total common shares outstanding. The reconciliation to book value per common share, the most comparable GAAP measure, is presented on page 67 herein.

American International Group, Inc. **Revised Historical Segment Results Non-GAAP Financial Measures (Cont.)**

AIG Return on Common Equity (ROCE) - Adjusted After-tax Income Excluding AOCI adjusted for the cumulative unrealized gains and losses related to Fortitude Re's Funds Withheld Assets and DTA (Adjusted Return on Common Equity) is used to show the rate of return on common shareholders' equity. We believe this measure is useful to investors because it eliminates items that can fluctuate significantly from period to period, including changes in fair value of our available for sale securities portfolio, foreign currency translation adjustments and U.S. tax attribute deferred tax assets. This measure also eliminates the asymmetrical impact resulting from changes in fair value of our available for sale securities portfolio wherein there is largely no offsetting impact for certain related insurance liabilities. In addition, we adjust for the cumulative unrealized gains and losses related to Fortitude Re's Funds Withheld Assets since these fair value movements are economically transferred to Fortitude Re. We exclude deferred tax assets representing U.S. tax attributes related to net operating loss carryforwards and foreign tax credits as they have not yet been utilized. Amounts for interim periods are estimates based on projections of full-year attribute utilization. As net operating loss carryforwards and foreign tax credits are utilized, the portion of the DTA utilized is included in Adjusted Return on Common Equity. Adjusted Return on Common Equity is derived by dividing actual or annualized adjusted after-tax income attributable to AIG common shareholders by average Adjusted Common Shareholders' Equity. The reconciliation to return on common equity, the most comparable GAAP measure, is presented on page 68 herein.

AIG Return on Common Equity – Adjusted After-tax Income, Excluding Goodwill, VOBA, VODA and Other Intangible assets, AOCI adjusted for the cumulative unrealized gains and losses related to Fortitude Re's Funds Withheld Assets, and DTA (Adjusted Return on Tangible Common Equity) is used to provide the rate of return on adjusted tangible common shareholder's equity, which is a more accurate measure of realizable shareholder value. We exclude Goodwill, VOBA, VODA and Other intangible assets from AIG common shareholders' equity to derive tangible common shareholders' equity and we further exclude AOCI adjusted for the cumulative unrealized gains and losses related to Fortitude Re's Funds Withheld Assets, and DTA for Adjusted Tangible Common Equity. Adjusted Return on Tangible Common Equity is derived by dividing actual or annualized adjusted after-tax income attributable to AIG common shareholders by average Adjusted Tangible Common Shareholders' Equity. The reconciliation to return on common equity, the most comparable GAAP measure, is presented on page 68 herein.

Adjusted Revenues exclude Net realized capital gains (losses), income from non-operating litigation settlements (included in Other income for GAAP purposes) and changes in fair value of securities used to hedge guaranteed living benefits (included in Net investment income for GAAP purposes). Adjusted revenues is a GAAP measure for our operating segments.

Ratios: We, along with most property and casualty insurance companies, use the loss ratio, the expense ratio and the combined ratio as measures of underwriting performance. These ratios are relative measurements that describe, for every \$100 of net premiums earned, the amount of losses and loss adjustment expenses (which for General Insurance excludes net loss reserve discount), and the amount of other underwriting expenses that would be incurred. A combined ratio of less than 100 indicates underwriting income and a combined ratio of over 100 indicates an underwriting loss. Our ratios are calculated using the relevant segment information calculated under GAAP, and thus may not be comparable to similar ratios calculated for regulatory reporting purposes. The underwriting environment varies across countries and products, as does the degree of litigation activity, all of which affect such ratios. In addition, investment returns, local taxes, cost of capital, regulation, product type and competition can have an effect on pricing and consequently on profitability as reflected in underwriting income and associated ratios.

Accident year loss and combined ratios, as adjusted: both the accident year loss and combined ratios, as adjusted exclude catastrophe losses and related reinstatement premiums, prior year development, net of premium adjustments, and the impact of reserve discounting. We believe that as adjusted ratios are meaningful measures of our underwriting results on an ongoing basis as they exclude catastrophes and the impact of reserve discounting which are outside of management's control. We also exclude prior year development to provide transparency related to current accident year results.

Underwriting ratios are computed as follows:

- a) Loss ratio = Loss and loss adjustment expenses incurred ÷ Net premiums earned (NPE)
- b) Acquisition ratio = Total acquisition expenses ÷ NPE
- c) General operating expense ratio = General operating expenses ÷ NPE
- d) Expense ratio = Acquisition ratio + General operating expense ratio
- e) Combined ratio = Loss ratio + Expense ratio
- f) Catastrophe losses (CATs) and reinstatement premiums = [Loss and loss adjustment expenses incurred (CATs)] ÷ [NPE +/(-) CYRIPs] Loss ratio
- g) Accident year loss ratio, as adjusted (AYLR) = [Loss and loss adjustment expenses incurred CATs PYD] ÷ [NPE +/(-) Reinstatement premiums related to catastrophes (CYRIPs) +/(-) RIPs related to prior year catastrophes (PYRIPs) + (Additional) returned premium related to PYD on loss sensitive business ((AP)RP) + Adjustment for ceded premiums under reinsurance contracts related to prior accident years]
- h) Accident year combined ratio, as adjusted = AYLR + Expense ratio
- i) Prior year development net of (additional) return premium related to PYD on loss sensitive business = [Loss and loss adjustment expenses incurred CATs PYD] ÷ [NPE +/(-) CYRIPs +/(-) PYRIPs + (AP)RP] Loss ratio – CAT ratio

American International Group, Inc. **Revised Historical Segment Results Non-GAAP Financial Measures (Cont.)**

Premiums and deposits: includes direct and assumed amounts received and earned on traditional life insurance policies, group benefit policies and life-contingent payout annuities, as well as deposits received on universal life, investment-type annuity contracts, Federal Home Loan Bank (FHLB) funding agreements and mutual funds.

Results from discontinued operations are excluded from all of these measures.

<u>Key Terms</u> - Throughout this Financial Supplement, we use the following terms:

Natural catastrophe losses are generally weather or seismic events having a net impact on AIG in excess of \$10 million each and man-made catastrophe losses, such as terrorism and civil disorders that exceed the \$10 million threshold.

Alternative investment income includes income on hedge funds, private equity funds and affordable housing partnerships. Hedge funds for which we elected the fair value option are recorded as of the balance sheet date. Private equity funds are generally reported on a one-quarter lag. Starting 1Q 2020, we use a 6% expected rate of return for the better (worse) than expected alternative investments line item. We used an 8% expected rate of return for the better (worse) than expected alternative investments line item for all periods in 2019.

^{*} Due to change in accounting principle.

^{**}The portion of the returns on the funds withheld balance under a modified coinsurance treaty that is attributable to the unrealized gain or loss was reclassified to be excluded from adjusted pretax income consistent with current reporting on other similar assets.

American International Group, Inc. **Revised Historical Segment Results Consolidated Notes**

- (1) For the nine months ended September 30, 2020 and the three months ended June 30, 2020, because we reported a net loss attributable to AIG common shareholders from continuing operations, all common stock equivalents are anti-dilutive and are therefore excluded from the calculation of diluted shares and diluted per share amounts. The shares excluded from the diluted EPS calculation were 4,432,369 shares and 3.226.882 shares in the same periods, respectively.
- (2) Hybrid debt securities, financial debt and syndicated credit facility are attributed to our reportable segments and Other Operations.
- Represents the impact of fair value changes included in APTI on the Fixed Maturity Securities Other accounted under the fair value option, rather than their impact on the income from continuing operations before tax expense. Starting 1O 2020, we use a 4% expected rate of return to calculate the better (worse) than expected fair value changes on the Fixed Maturity Securities – Other line item. For all periods in 2019, we used a 6% expected rate of return to calculate the better (worse) than expected fair value changes on the Fixed Maturity Securities – Other line.
- Interest and dividends, alternative investments and other investments income (loss) in 2020 were reclassified in 3020 resulting in an increase of other investment income (loss) of \$113 million and a decrease in alternative investments and interest and dividends of \$13 million and \$100 million, respectively. The reclassification has no impact to net investment income - excluding Fortitude Re funds withheld assets or total net investment income.
- Prior to June 2, 2020, noncontrolling interests was primarily due to the 19.9 percent investment in Fortitude Holdings by an affiliate of Carlyle, which occurred in the fourth quarter of 2018. Carlyle was allocated 19.9 percent of Fortitude Holdings' standalone financial results through the June 2, 2020 closing date of the Majority Interest Fortitude Sale. Fortitude Holdings' results were mostly eliminated in AIG's consolidated income from continuing operations given that its results arose from intercompany transactions. Noncontrolling interests was calculated based on the standalone financial results of Fortitude Holdings. The most significant component of Fortitude Holdings' standalone results was the change in fair value of the embedded derivatives which changes with movements in interest rates and credit spreads, and which was recorded in net realized capital gains and losses of Fortitude Holdings. In accordance with AIG's adjusted after-tax income definition, realized capital gains and losses are excluded from noncontrolling interests. Subsequent to the Majority Interest Fortitude Sale, AIG owns 3.5 percent of Fortitude Holdings and no longer consolidates Fortitude Holdings in its financial statements as of such date. The minority interest in Fortitude Holdings is carried at cost within AIG's Other invested assets, which was \$100 million as of September 30, 2020. Fortitude Holdings' summarized financial information (standalone results), prior to the Majority Interest Fortitude Sale is presented below:

- (6) As of September 30, 2020 and December 31, 2019, includes \$4.0 billion and \$4.0 billion of Goodwill, respectively, and other intangible assets of \$1.0 billion and \$1.2 billion, respectively, primarily relating to the acquisitions of Validus, Glatfelter Insurance Group and Ellipse.
- Represents AIG's obligation to Fortitude Re for funds withheld assets supporting the modified coinsurance agreement. See a breakdown of funds withheld assets on page 71 and a breakdown of funds withheld investments by segment on page 52.
- In March 2019, we issued 20,000 shares of Series A 5.85% Non-Cumulative Preferred Stock, with a par value of \$5.00 per share and a liquidation preference of \$25,000 per share, for net proceeds of \$485 million.
- In May 2020, we issued \$1.5 billion aggregate principal amount of 2.500% Notes Due 2025, \$1.6 billion aggregate principal amount of 3.400% Notes Due 2030 and \$1.0 billion aggregate principal amount of 4.375% Notes Due 2050. In February 2020, we redeemed all of our outstanding 4.35% callable Notes Due 2045.
- (10) The junior subordinated debt securities receive partial equity treatment from a major rating agency under its current policies but are recorded as long-term borrowings in the Consolidated Balance Sheets.
- (11) Syndicated credit facility represents the \$1.3 billion we borrowed under our \$4.5 billion revolving syndicated credit facility on March 20, 2020, which was recorded in Other liabilities. On June 9, 2020, AIG Parent repaid the \$1.3 billion borrowed under its \$4.5 billion committed, revolving syndicated credit facility in full with interest.
- (12) On October 26, 2020, AIG announced its intention to separate its Life and Retirement business from AIG. No decisions have yet been made regarding the structure of the proposed separation. In addition, any separation transaction will be subject to the satisfaction of various conditions and approvals, including approval by the AIG Board of Directors, receipt of insurance and other required regulatory approvals, and satisfaction of any applicable requirements of the Securities and Exchange Commission. No assurance can be given regarding the form that a separation transaction may take or the specific terms or timing thereof, or that a separation will in fact occur.

^{*} Includes the amortization attributed to the deferred gain at inception from the National Indemnity Company (NICO) adverse development reinsurance agreements of \$53 million, \$53 million, \$58 million and \$58 million for the three months ended September 30, June 30, March 31, 2020, and December 31 and September 30, 2019, respectively. Consistent with our definition of APTI, prior year development excludes the portion of (favorable)/unfavorable prior year reserve development for which we have ceded the risk under the NICO reinsurance agreements of \$(46) million, \$(2) million, \$(2) million and \$(129) million for the three months ended September 30, June 30 and March 31, 2020, and December 31 and September 30, 2019, respectively, and related changes in amortization of the deferred gain of \$(17) million, \$23 million, \$21 million, \$31 million, and \$(71) million for those same periods. See details of amortization attributed to the deferred gain at inception from the NICO adverse development reinsurance agreements on page 28.

*Unfavorable prior year development during the three months ended September 30, 2020 is primarily related to International Financial Lines and Casualty driven by increased large losses, partially offset by favorable development in US Workers Compensation and other short-tailed lines in International Property and Specialty and the Adverse Development Cover amortization. Favorable prior year development during the three months ended June 30, 2020 is driven by the Adverse Development Cover amortization and International Property and Global Specialty, partially offset by adverse development in North America Programs and Personal Lines. Favorable prior year development during the three months ended March 31, 2020 is driven by the Adverse Development Cover amortization and International Casualty recovery, partially offset by adverse development in North America Personal Insurance. Favorable prior year development during the three months ended December 31, 2019 is driven by approximately \$290 million of favorable development on 2017 CATs consisting of \$100 million related to Hurricanes and approximately \$190 million related to California Wildfire subrogation recoverables, North America Workers Compensation favorable development, and the Adverse Development Cover amortization offset by adverse development in US Financial Lines and in the run-off construction portfolio. Favorable prior year development during the three months ended September 30, 2019 is largely driven from the Adverse Development Cover amortization with additional favorable development from North America Workers Compensation, Europe Property and Global Specialty and Europe and Japan Personal Insurance offset by net adverse prior year loss reserve development from North America Financial Lines and Europe Casualty and Financial Lines.

American International Group, Inc. General Insurance Notes

- (1) AIG participates in the market for insurance-linked securities (ILS) primarily through AlphaCat Managers, Ltd. (AlphaCat). AlphaCat is an asset manager of various funds, managed accounts and sidecars capitalized by third-party investors and Validus. Total assets under management by AlphaCat is \$4.2 billion at September 30, 2020, of which \$4.1 billion relates to third-party assets. ILS are financial instruments for which the values are determined based on insurance risk primarily related to natural catastrophes such as earthquakes and hurricanes. We report the investment in the vehicles managed by AlphaCat as Other Invested Assets. We recognized approximately \$1 million and \$8 million of Net Investment Income (Loss), as well as \$8 million each of Miscellaneous Income (reported as a component of Net Premiums Earned, and consisting of fee income), respectively, in the three months ended December 31, and September 30, 2019, respectively. Starting 1Q20, on a prospective basis, we report the fee income as a component of Net Investment Income rather than as Miscellaneous Income, a component of Net Premiums Earned. In the three months ended September 30, June 30 and March 31, 2020, we recognized approximately \$9 million, \$6 million and \$10 million of Net Investment Income respectively, of which \$8 million, \$8 million, and \$8 million, is the fee income from asset management activities, and \$1 million, \$(2) million and \$2 million is the income/ (loss) from direct investment activities, respectively.
- (2) Consistent with our definition of APTI, excludes net loss reserve discount and the portion of favorable or unfavorable prior year reserve development for which we have ceded the risk under retroactive reinsurance agreements and related changes in amortization of the deferred gain.
- (3) Computed using current exchange rate for the corresponding periods in the prior year.

American International Group, Inc. Revised Historical Segment Results General Insurance - Adverse Development Cover

On January 20, 2017, we entered into an adverse development reinsurance agreement with NICO under which we transferred to NICO 80 percent of the reserve risk on substantially all of our U.S. Commercial long-tail exposures for accident years 2015 and prior.

The table below shows the calculation of the gain on the NICO adverse development reinsurance agreement showing the effect of discounting of loss reserves and amortization of the deferred gain. The deferred gain is amortized over the settlement period of the reinsured losses.

- (a) Excludes assumed reinsurance business.
- (b) A guaranteed minimum death benefit is an amount paid from a variable annuity upon the death of the owner. This benefit protects beneficiaries from market volatility and may be different than the account value. This benefit may be subject to a maximum amount based on age of owner or dollar amount. "Guaranteed Minimum Death Benefits only" signifies that no other guarantees are present in the contracts with a guaranteed living benefit also have a guaranteed minimum death benefit, but a policyholder can generally only receive payout from one guaranteed feature, i.e. the features are generally mutually exclusive.
- (c) A guaranteed minimum income benefit guarantees a minimum level of periodic income payments upon annuitization.
- (d) A guaranteed minimum withdrawal benefit creates a guaranteed income stream which, within certain parameters, may continue for the life of the annuitant even if the entire contract value has been reduced to zero. The fair value of GMWB embedded derivatives is based on actuarial and capital market assumptions related to projected cash flows of rider fees and claims over the expected lives of the contracts.

The following table presents the net increase (decrease) to consolidated pre-tax income from changes in the fair value of the GMWB embedded derivatives and related hedges:

American International Group, Inc. Revised Historical Segment Results Life and Retirement Notes

- (1) Net investment income (loss) base portfolio includes interest, dividends, and foreclosed real estate income, net of investment expenses and non-qualifying (economic) hedges.
- (2) Net investment income (loss) other yield enhancements includes call and tender income, commercial mortgage loan prepayments, changes in market value of investments accounted for under the fair value option, interest received on defaulted investments (other than foreclosed real estate) and other miscellaneous investment income, including income of certain partnership entities that are required to be consolidated.
- (3) Life and Retirement Adjusted pre-tax income in 3Q20 and 3Q19 included the net effect of adjustments to reflect the annual review and update of certain assumptions used to amortize DAC and related items for interest-sensitive products, including life and annuity spreads, mortality rates, lapse rates, fees and separate account long-term asset growth rates. The update of actuarial assumptions also included adjustments to reserves for universal life with secondary guarantees. Consolidated pre-tax income in these periods also included adjustments to the valuation of variable annuity GMWB features that are accounted for as embedded derivatives, primarily due to updated assumptions for lapses, mortality, risk margins and utilization of withdrawal benefits. Changes in the fair value of such embedded derivatives are recorded in net realized capital gains (losses) and, together with related DAC adjustments, are excluded from APTI. In the aggregate, the net effect of adjustments to reflect the review and update of actuarial assumptions for Life and Retirement products increased (decreased) APTI and pre-tax income as follows:

- (4) Non deferrable insurance commissions and other includes risk charges related to statutory reinsurance that became effective in 2016 of certain life insurance reserves, which resulted in the release of statutory capital. The risk charges are allocated to the Life and Retirement segments on the basis of attributed common equity, consistent with the benefit from the reduced capital requirement.
- (5) Assets under administration also enrolled in advisory services and mutual funds or annuities sold through VALIC Financial Advisors and reported in another AIG business unit segment.
- (6) Includes incremental effect on base yield of alternative investments. Quarterly results are annualized.
- (7) Includes incremental effect on base yield of other yield enhancements. Quarterly results are annualized.
- (8) Includes returns from base portfolio including accretion and impacts from holding cash and short-term investments. Quarterly results are annualized.
- (9) Annuity surrender rates represent actual or annualized surrenders and other withdrawals as a percentage of average annuity reserves and Group Retirement mutual fund assets under administration.
- (10) Life and Retirement uses reinsurance, product design and hedging to mitigate risks related to guaranteed benefits in individual annuity contracts. See Part II, Item 7. MD&A Enterprise Risk Management Insurance Risks Life and Retirement Companies' Key Risks Variable Annuity Risk Management and Hedging Programs in our Annual Report on Form 10-K for the year ended December 31, 2019 for a discussion of our risk management related to these product features.
- (11) Life Insurance Other income is primarily related to Laya Healthcare commission and profit sharing revenues received from insurers for distribution of their products.
- (12) Life Insurance sales are shown on a continuous payment premium equivalent (CPPE) basis. Life insurance sales include periodic premiums from new business expected to be collected over a one-year period and 10 percent of unscheduled and single premiums from new and existing policyholders. Sales of accident and health insurance represent annualized first-year premium from new policies.
- (13) Life insurance lapse rates are reported on a 90-day lag basis to include grace period processing.
- (14) In 4Q19, an adjustment of (\$121) million was made to reflect an intercompany elimination. Prior periods have been revised to conform with the current period presentation.
- (15) On October 26, 2020, AIG announced its intention to separate its Life and Retirement business from AIG. No decisions have yet been made regarding the structure of the proposed separation. In addition, any separation transaction will be subject to the satisfaction of various conditions and approvals, including approval by the AIG Board of Directors, receipt of insurance and other required regulatory approvals, and satisfaction of any applicable requirements of the Securities and Exchange Commission. No assurance can be given regarding the form that a separation transaction may take or the specific terms or timing thereof, or that a separation will in fact occur.

American International Group, Inc. Revised Historical Segment Results Life and Retirement Notes

(16) Net flows for Individual Retirement and Group Retirement. Annuity net flows represent premiums and deposits less death, surrender and other withdrawal benefits. Net flows related to mutual funds represent deposits less withdrawals. Two large FHLB funding agreements were issued within Individual Retirement and Group Retirement totaling \$1.3 billion in the twelve-month period ended December 31, 2018. The deposits from these agreements were excluded from the net flows of Individual Retirement (\$1.1 billion) and Group Retirement (\$0.2 billion), as net flows from these funding agreements are not considered part of the metric to measure core recurring performance.

American International Group, Inc. Revised Historical Segment Results Other Operations Results

- (1) At the end of March 2020, Blackboard, AIG's technology-driven subsidiary, was placed into run-off. As a result of this decision, AIG recognized a pre-tax loss of \$210 million, primarily consisting of asset impairment charges; this charge did not impact adjusted pre-tax income
- (2) Consolidation, eliminations and other adjustments consolidated investment entities primarily represents the elimination of intercompany net investment income recorded by our General Insurance and Life and Retirement subsidiaries for their investments in consolidated investment entities within our Asset Management Group.

^{*} In 3Q19, includes \$200 million from the sale and concurrent leaseback of our corporate headquarters and \$300 million as a result of sales of investment real estate properties.

American International Group, Inc. Revised Historical Segment Results Investments Portfolio Results Notes

- (1) Yields/Total Return are calculated using quarterly annualized investment income divided by the average quarterly asset amortized cost for the interim periods. Starting in the second quarter of 2020, for hedge fund investments, annualized yield calculations are based on the average ending carrying value with adjustments for hedge fund redemptions that occurred at the beginning of the quarter. Prior periods have been revised to reflect the annualized yield calculation change in hedge fund investments. In the second quarter of 2020, for purposes of calculating yield/total returns, average amortized cost was adjusted to excluded Fortitude Re withheld assets, consistent with the exclusion of net investment income on Fortitude Re funds withheld assets post deconsolidation of Fortitude Re.
- (2) As of September 30, 2020, our Fixed Maturity Securities AFS portfolio was approximately 82% fixed rate and 18% variable rate.
- (3) Fixed Maturity Securities Other are securities for which we elected the fair value option. For Fixed Maturity Securities Other changes in the fair value of these securities are reported through investment income, which can result in significant fluctuation in the total return.
- (4) Excludes the carrying value of securities used to hedge guaranteed living benefits.
- (5) As of September 30, 2020, our Fixed Maturity Securities Other portfolio was approximately 34% fixed rate and 66% variable rate.
- (6) Other Invested Assets Hedge Funds/Private Equity includes investments accounted for under the equity method of accounting, where changes in our share of the net asset values are recorded through investment income or investments where we have elected the fair value option, where changes in the fair value are reported through investment income.
- (7) Other Invested Assets All Other includes long term time deposits, private common stock, and affordable housing partnerships. Due to the mix of investments included within this line item and their varied performance, annualized yield is not meaningful and therefore is not presented.
- (8) Consistent with our definition of APTI, we exclude equity securities from our investments and changes in the fair value of equity securities from gross and net investment income-APTI basis. The following table provides information related to equity securities for periods presented (on a pre-tax basis):

| | | | | | | | | | | | | 1 | Nine Mont | hs Ended | 1 | Ended | 1 | Ended |

^{*}Eliminations are primarily related to intercompany investments in consolidated investment entities.

American International Group, Inc. **Revised Historical Segment Results Credit Ratings for Fixed Maturities**

Credit Ratings

At September 30, 2020, approximately 89 percent of our fixed maturity securities were held by our domestic entities. Approximately 88 percent of these securities were rated investment grade by one or more of the principal rating agencies. Our investment decision process relies primarily on internally generated fundamental analysis and internal risk ratings. Third-party rating services' ratings and opinions provide one source of independent perspective for consideration in the internal analysis.

Moody's Investors Service Inc. (Moody's), Standard & Poor's Financial Services LLC, a subsidiary of S&P Global Inc. (S&P), or similar foreign rating services rate a significant portion of our foreign entities' fixed maturity securities portfolio. Rating services are not available for some foreign-issued securities. Our Credit Risk Management department closely reviews the credit quality of the foreign portfolio's nonrated fixed maturity securities. At September 30, 2020, approximately 95 percent of such investments were either rated investment grade or, on the basis of our internal analysis, were equivalent from a credit standpoint to securities rated investment grade. Approximately 28 percent of the foreign entities' fixed maturity securities portfolio is comprised of sovereign fixed maturity securities supporting policy liabilities in the country of issuance.

Composite AIG Credit Ratings

With respect to our fixed maturity securities, the credit ratings in the following pages reflect: (a) a composite of the ratings of the three major rating agencies, or when agency ratings are not available, the rating assigned by the NAIC SVO (99 percent of total fixed maturity securities), or (b) our equivalent internal ratings when these investments have not been rated by any of the major rating agencies or the NAIC. The "Non-rated" category in those tables consists of fixed maturity securities that have not been rated by any of the major rating agencies, the NAIC or us.

NAIC Designations of Fixed Maturity Securities

The Securities Valuation Office (SVO) of the National Association of Insurance Commissioners (NAIC) evaluates the investments of U.S. insurers for statutory reporting purposes and assigns fixed maturity securities to one of six categories called 'NAIC Designations.' In general, NAIC Designations of '1' highest quality, or '2' high quality, include fixed maturity securities considered investment grade, while NAIC Designations of '3' through '6' generally include fixed maturity securities referred to as below investment grade. The NAIC has adopted revised rating methodologies for certain structured securities, including non-agency RMBS and CMBS, which are intended to enable a more precise assessment of the value of such structured securities and increase the accuracy in assessing expected losses to better determine the appropriate capital requirement for such structured securities. These methodologies result in an improved NAIC Designation for such securities compared to the rating typically assigned by the three major rating agencies.

^{*} Includes vested shares under our share-based employee compensation plans.

^{**} For the nine months ended September 30, and three months ended June 30, 2020, since we reported a net loss attributable to AIG common shareholders from continuing operations, all common stock equivalents are anti-dilutive and are therefore excluded from the calculation of diluted shares and diluted per share amounts. The shares excluded from the diluted EPS calculation were 4,432,369 and 3,226,882 shares for the nine months ended September 30, and three months ended June 30, 2020, respectively. Decrease in dilutive shares is primarily driven by the decrease in average share price in the three months ended March 31, 2020, resulting in all warrants being antidilutive (as the average share price is below the warrant exercise price).

⁽a) Includes the write-down of net operating loss deferred tax assets in certain foreign jurisdictions, which is offset by valuation allowance release.

⁽f) See note (4) on page 16.

⁽b) Nine months ended September 30, 2020 includes valuation allowance established against a portion of foreign tax credit and net operating loss carryforwards of AIG's U.S. federal consolidated income tax group, as well as net valuation allowance release in certain foreign jurisdictions for the three- and nine-months ended September 30, 2020. (c) Represents activity subsequent to the deconsolidation of Fortitude Re on June 2, 2020.

⁽d)Includes all net realized capital gains and losses except earned income (periodic settlements and changes in settlement accruals) on derivative instruments used for non-qualifying (economic) hedging or for asset replication and net realized gains and losses on Fortitude Re funds withheld assets. (e) Includes the impact of non-U.S. tax rates which differ from the applicable U.S. statutory tax rate and tax-only adjustments.

American International Group, Inc. Revised Historical Segment Results Fortitude Re Supplementary Data

As of September 30, 2020, approximately \$30.6 billion of reserves from AIG's Life and Retirement Run-Off Lines and approximately \$4.1 billion of reserves from AIG's General Insurance Run-Off Lines, related to business written by multiple wholly-owned AIG subsidiaries, had been ceded to Fortitude Re under these reinsurance transactions. As of closing of the Majority Interest Fortitude Sale, these reinsurance transactions are no longer considered affiliated transactions and Fortitude Re is the reinsurer of the majority of AIG's Run-off Portfolio. Below lists selected pre-tax Balance Sheet data (in millions) from our life insurance and general insurance subsidiaries related to the business ceded to Fortitude:

| Funds withheld assets |
|---|
| Reinsurance assets - Fortitude Re |
| Unamortized balances prepaid insurance assets* |
| Deferred acquisition costs related to prepaid insurance assets* |
| Fortitude Re funds withheld payable |
| General Insurance run-off reserves** |
| Life and Retirement run-off reserves |

^{*}Amounts were written-off as result of the deconsolidation of Fortitude Re.

There is a diverse pool of assets supporting the funds withheld arrangements with Fortitude Re. The following summarizes the composition of the pool of assets as of September 30, 2020:

| September | 30, | 2020 |
|-----------|-----|------|
| | | |

| | Carrying Value | Fair Value | Corresponding Accounting Policy |
|--|----------------|--------------|--|
| Fixed maturity securities - available for sale (a) | \$ 35,775 | \$ 35,775 | Fair value through other comprehensive income |
| Fixed maturity securities - fair value option | 204 | 204 | Fair value through net investment income |
| Commercial mortgage loans | 3,577 | 3,866 | Amortized cost |
| Real estate investments | 356 | 586 | Amortized cost |
| Private equity funds / hedge funds | 992 | 992 | Fair value through net investment income |
| Policy loans | 423 | 423 | Amortized cost |
| Short-term investments | 16 | 16 | Fair value through realized capital gains (losses) |
| Funds withheld investment assets | 41,343 | 41,862 | |
| Derivative assets, net (b) | - | - | Fair value through realized capital gains (losses) |
| Other (c) | 681 | 681 | Amortized cost |
| Total | \$ 42,024 | \$ 42,543 | |

⁽a) The change in the net unrealized gains (losses) on available for sale securities related to the Fortitude Re funds withheld assets was \$722 million (\$570 million after-tax) during the post deconsolidation period (June 2, 2020-September 30, 2020).

^{**} Includes unearned premiums ceded to Fortitude Re as a result of the Majority Interest Fortitude Sale.

⁽b) The derivative assets have been presented net of collateral. The derivative assets supporting the Fortitude Re funds withheld arrangements had a fair market value of \$471 million as of September 30, 2020. These derivative assets are fully collateralized.

⁽c) Primarily comprised of Cash and Accrued Investment Income

American International Group, Inc. **Revised Historical Segment Results** Fortitude Re Supplementary Data

Comprehensive income (loss)

The impact of the funds withheld arrangements with Fortitude Re for the period post deconsolidation (June 2, 2020) was as follows:

| | Quarte | erly | Ended September 30, |
|--|--------|---------|------------------------|
| | 3Q20 | 2Q20 | 2020 |
| Net underwriting income | \$ - | \$ - \$ | - |
| Net investment income - Fortitude Re funds withheld assets | 458 | 116 | 574 |
| Net realized capital losses on Fortitude Re funds withheld assets: | | | |
| Net realized capital gains - Fortitude Re funds withheld assets | 32 | 96 | 128 |
| Net realized capital losses - Fortitude Re embedded derivatives | (656) | (837) | (1,493) |
| Net realized capital losses on Fortitude Re funds withheld assets | (624) | (741) | (1,365) |
| Loss from continuing operations before income tax benefit | (166) | (625) | (791) |
| Income tax benefit (*) | (35) | (131) | (166) |
| Net loss | (131) | (494) | (625) |
| Change in unrealized appreciation of all other investments (*) | 132 | 438 | 570 |

^(*) The income tax expense (benefit) and the tax impact in accumulated other comprehensive income was computed using the U.S. statutory tax rate of 21 percent.

Various assets supporting the Fortitude Re funds withheld arrangements are reported at amortized cost, and as such, changes in the fair value of these assets are not reflected in the financial statements. However, changes in the fair value of these assets are included in the embedded derivative in the Fortitude Re funds withheld arrangements. During the three-month period ended September 30, 2020 and the period from June 2, 2020 to September 30, 2020, these assets appreciated by \$(1) million and \$55 million, respectively, on an after-tax basis.

American International Group, Inc. (AIG) is a leading global insurance organization. AIG member companies provide a wide range of property casualty insurance, retirement solutions, and other financial services to customers in more than 80 countries and jurisdictions. These diverse offerings include products and services that help businesses and individuals protect their assets, manage risks and provide for retirement security. AIG common stock is listed on the New York Stock Exchange.

Additional information about AIG can be found at www.inkedin.com/company/aig. Twitter: @AIGinsurance www.twitter.com/AIGinsurance | LinkedIn: www.linkedin.com/company/aig. These references with additional information about AIG have been provided as a convenience, and the information contained on such websites is not incorporated by reference into this press release.

AIG is the marketing name for the worldwide property-casualty, life and retirement, and general insurance operations of American International Group, Inc. For additional information, please visit our website at www.aig.com. All products and services are written or provided by subsidiaries or affiliates of American International Group, Inc. Products or services may not be available in all countries and jurisdictions, and coverage is subject to underwriting requirements and actual policy language. Non-insurance products and services may be provided by independent third parties. Certain property-casualty coverages may be provided by a surplus lines insurer. Surplus lines insurers do not generally participate in state guaranty funds, and insureds are therefore not protected by such funds.
