AIG

Fourth Quarter and Full Year 2021

Financial Results Presentation

February 17, 2022

Cautionary Statement Regarding Forward-Looking Information, Comment on Regulation G and Other Information

- On October 26, 2020, AIG announced its intention to separate its Life and Retirement business from AIG. On November 2, 2021, AIG and Blackstone completed the acquisition by Blackstone of a 9.9 percent equity stake in SAFG Retirement Services, Inc. (SAFG), which is the holding company for AIG's Life and Retirement business, for $2.2 billion in an all-cash transaction, subject to adjustment if the final pro forma adjusted book value is greater or lesser than the target pro forma adjusted book value. This resulted in a $629 million decrease to AIG's shareholders' equity. For additional information, please refer to Note 1 to the Consolidated Financial Statements in AIG's 10-K for the year ended December 31, 2021.

This document and the remarks made within this presentation may include, and officers and representatives of American International Group, Inc. (AIG) may from time to time make and discuss, statements which, to the extent they are not statements of historical or present fact, may constitute "forward looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements are intended to provide management's current expectations or plans for AIG's future operating and financial performance, based on assumptions currently believed to be valid. Forward-looking statements are often preceded by, followed by or include words such as "will," "believe," "anticipate," "expect," "expectations," "intend," "plan," "strategy," "prospects," "project," "anticipate," "should," "see," "guidance," "outlook," "confident," "focused on achieving," "view," "target," "goal," "estimate" and other words of similar meaning in connection with a discussion of future operating or financial performance. These statements may include, among other things, projections, goals and assumptions that relate to future actions, prospective services or products, future performance or results of current and anticipated services or products, sales efforts, expense reduction efforts, the outcome of contingencies such as legal proceedings, anticipated organizational, business or regulatory changes, such as the separation of the Life and Retirement business, the effect of catastrophes, such as the COVID-19 pandemic, and macroeconomic events, anticipated dispositions, monetization and/or acquisitions of businesses or assets, or successful integration of acquired businesses, management succession and retention plans, exposure to risk, trends in operations and financial results, and other statements that are not historical facts. All forward-looking statements involve risks, uncertainties and other factors that may cause AIG's actual results and financial condition to differ, possibly materially, from the results and financial condition expressed or implied in the forward-looking statements. Factors that could cause AIG's actual results to differ, possibly materially, from those in the specific projections, goals, assumptions and statements include, without limitation: AIG's ability to successfully separate the Life and Retirement business and the impact any separation may have on AIG, its businesses, employees, contracts and customers; the occurrence of catastrophic events, both natural and man-made, including COVID-19, other pandemics, civil unrest and the effects of climate change; the effect of economic conditions in the markets in which AIG and its businesses operate in the U.S. and globally and any changes therein, including financial market conditions, fluctuations in interest rates and foreign currency exchange rates and inflationary pressures; AIG's ability to effectively execute on the AIG 200 operational programs designed to modernize AIG's operating infrastructure and enhance user and customer experiences, and AIG's ability to achieve anticipated cost savings from AIG 200; the impact of potential information technology, cybersecurity or data security breaches, including as a result of supply chain disruptions, cyber-attacks or security vulnerabilities, the likelihood of which may increase due to extended remote business operations as a result of COVID-19; the impact of COVID-19 and responses thereto, including new or changed governmental policy and regulatory actions, on AIG's business, financial condition and results of operations; availability of reinsurance or access to reinsurance on acceptable terms; disruptions in the availability of AIG's electronic data systems or those of third parties; changes to the valuation of AIG's investments; actions by rating agencies with respect to AIG's credit and financial strength ratings as well as those of its businesses and subsidiaries; concentrations in AIG's investment portfolios, including as a result of our asset management relationship with Blackstone Inc. (Blackstone); the effectiveness of strategies to recruit and retain key personnel and to implement effective succession plans; the effectiveness of AIG's enterprise risk management policies and procedures, including with respect to business continuity and disaster recovery plans; changes in judgments concerning the recognition of deferred tax assets and the impairment of goodwill; AIG's ability to effectively execute on ESG targets and standards; AIG's ability to successfully dispose of, monetize and/or acquire businesses or assets or successfully integrate acquired businesses; nonperformance or defaults by counterparties, including Fortitude Reinsurance Company Ltd. (Fortitude Re); changes in judgments concerning potential cost-saving opportunities; changes to our sources of or access to liquidity; changes in judgments or assumptions concerning insurance underwriting and insurance liabilities; the requirements, which may change from time to time, of the global regulatory framework to which AIG is subject; significant legal, regulatory or governmental proceedings and such other factors discussed in: Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) and Part I, Item 1A. Risk Factors in AIG's Annual Report on Form 10-K for the year ended December 31, 2021 (which will be filed with the Securities and Exchange Commission), Part I, Item 2. MD&A in AIG's Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2021, Part I, Item 2. MD&A in AIG's Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2021, Part I, Item 2. MD&A in AIG's Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2021, and Part II, Item 7. MD&A and Part I, Item 1A. Risk Factors in AIG's Annual Report on Form 10-K for the year ended December 31, 2020 . The forward-looking statements speak only as of the date of this presentation. AIG is not under any obligation (and expressly disclaims any obligation) to update or alter any projections, goals, assumptions or other statements, whether written or oral, that may be er as a result of new information, future events or otherwise.

This document and the remarks made orally may also contain certain financial measures not calculated in accordance with generally accepted accounting principles (non-GAAP). The reconciliation of such measures to the most comparable GAAP measures in accordance with Regulation G is included in the earnings release and Fourth Quarter 2021 Financial Supplement available in the Investor Information section of AIG's corporate website, www.aig.com, as well as in the Appendix to this presentation.

Note: Amounts presented may not foot due to rounding.

4Q21 and FY’21 APTI reflects continued strong underwriting margin improvement in General Insurance and solid Life and Retirement APTI

4Q21 Financial Results

- Adjusted after-tax income attributable to AIG common shareholders (AATI)* of $1.3B, or $1.58 per diluted common share, compared to $827M, or $0.94 per diluted common share, in 4Q20, due to strong operating performance in General Insurance
- General Insurance adjusted pre-tax income (APTI)* of $1.5B reflects strong underwriting gains; the combined ratio was 92.4, a 10.4 point improvement from 4Q20, primarily due to strong underwriting results across the portfolio, including lower catastrophe losses, net of reinsurance (CATs) and reinstatement premiums; the accident year combined ratio (AYCR), as adjusted* improved 3.1 points to 89.8
- General Insurance net premiums written (NPW) increased by 7% (8% on a constant dollar basis) to $6B from 4Q20, primarily driven by 13% growth (13% on a constant dollar basis) in Global Commercial Lines
- Life and Retirement APTI of $969M compared to $1,027M in 4Q20 reflects unfavorable mortality, lower fair value option bond and call and tender income, offset by higher alternative income and higher fee income; Life and Retirement annualized return on adjusted segment common equity* was 13.7%
- Net income attributable to AIG common shareholders was $3.7B, or $4.38 per diluted common share, compared to a net loss of $60M, or $0.07 per common share, in 4Q20, primarily due to overall strong General Insurance underwriting results, including lower CATs, net realized gains and gains on divestitures in 4Q21 compared to net realized losses in 4Q20
- Annualized return on common equity (ROCE) and adjusted ROCE* were 23.0% and 9.9%, respectively
- $10.7B AIG Parent liquidity at December 31, 2021, up $5.4B from September 30, 2021, primarily driven by the receipt of net cash proceeds of approximately $6B resulting from the Blackstone transactions in 4Q21
- Book value and adjusted tangible book value* per common share increased 5% and 23%, respectively, from the prior year; up 4% and 12%, respectively, from September 30, 2021
- AIG repurchased $1B of common stock (~17M shares) and used $1B towards debt reduction in the quarter

FY’21 Financial Results

- AATI was $4.4B, or $5.12 per diluted common share, compared to $2.2B, or $2.52 per diluted common share, in 2020
- General Insurance APTI of $4.4B reflects strong underwriting gains; the combined ratio was 95.8, an 8.5 point improvement from 2020 primarily due to strong underwriting results across the portfolio, including lower CATs; the AYCR, as adjusted improved 3.1 points to 91.0
- General Insurance NPW increased by 13% (11% on a constant dollar basis) to $26B from 2020 driven by 18% (16% on a constant dollar basis) growth in Global Commercial Lines
- Life and Retirement APTI of $3.9B reflects higher alternative investment income, higher call and tender income, and commercial mortgage loan prepayments, partially offset by unfavorable mortality and base net investment spread compression; Life and Retirement return on adjusted segment common equity* was 14.2%
- Net income attributable to AIG common shareholders was $9.4B, or $10.82 per diluted common share, compared to net loss of $6.0B, or $6.88 per common share, in 2020, primarily due to overall strong General Insurance underwriting results, including lower CATs, higher net investment income (NII), net realized gains and gains on divestitures in 2021 compared to net realized losses in 2020
- ROCE and adjusted ROCE were 14.5% and 8.6%, respectively
- Completed the sale of 9.9% equity stake in Life and Retirement and certain affordable housing interests for total proceeds to AIG Parent of approximately $6B
- $10.7B AIG Parent liquidity at December 31, 2021, compared to $10.5B at December 30, 2020, relatively flat year over year
- In 2021 AIG returned $7.7B of capital to stakeholders, including $2.6B of common stock repurchases (~50M shares) and used $4B to reduce debt, lowering total debt and preferred stock leverage by 380 basis points from prior year end to 24.6%

* Refers to financial measure not calculated in accordance with generally accepted accounting principles (Non-GAAP); definitions and abbreviations of Non-GAAP measures and reconciliations to their closest GAAP measures can be found in this presentation under the heading Glossary of Non-GAAP Financial Measures and Non-GAAP Reconciliations.

Adjusted ROE improvement and tangible book value growth reflect strong operating performance in General Insurance and solid Life and Retirement results

- **General Insurance** 4Q21 and FY'21 APTI of $1.5B and $4.4B reflect strong underwriting results; the combined ratio was 92.4 in 4Q21 and 95.8 in FY'21, a 10.4 point and 8.5 point improvement, respectively, from prior year periods; the AYCR, as adjusted was 89.8 and 91.0 in 4Q21 and FY'21, reflecting continued improvement by Commercial Lines in the quality of the portfolio and Commercial Insurance underwriting business mix
- **Life and Retirement** 4Q21 and FY'21 APTI of $969M and $3.9B, compared to $1,027M and $3.5B in prior year periods; Life Insurance 4Q21 adjusted pre-tax loss (APTL)* of $8M and FY'21 APTI of $106M, down $38M and $36M, respectively, from prior year periods primarily due to unfavorable mortality
- **Other Operations** 4Q21 and FY'21 APTL was $648M and $2.4B, including $470M and $932M of reductions from consolidation and eliminations; the increase in consolidation and eliminations APTL reflects the elimination of the insurance companies' NII on their investment in consolidated investment entities that is accounted for as realized gains or losses in consolidation

1) Other Operations is primarily comprised of corporate, our institutional asset management business and consolidation and eliminations.

* Refers to financial measure not calculated in accordance with generally accepted accounting principles (Non-GAAP); definitions and abbreviations of Non-GAAP measures and reconciliations to their closest GAAP measures can be found in this presentation under the heading Glossary of Non-GAAP Financial Measures and Non-GAAP Reconciliations.

AIG 200: Continued execution of global, multi-year initiative to achieve transformational change

- Estimated run-rate net general operating expense exit savings of $1B by end of 2022
- Achieved run-rate savings of $810M since program began in 2020

General Insurance	1	The **Standard Commercial Underwriting Platform** will modernize global underwriting capabilities by simplifying processes and tools to create a contemporary data architecture
	2	Transform **Japan business** into a next-generation digital insurance company with the ability to offer “anywhere, anytime, any device” experience
	3	Improve decision-making in **Private Client Group** through modernizing legacy technology and moving to digitized workloads
Shared Services	4	Create **AIG Global Operations**, a multifunctional, fully integrated operating model with digitally enabled end-to-end process and increased scope and scale
Information Technology	5	Transform **IT operating model**
	6	Build a modern, scalable and secure **technology foundation** to improve operational stability and enable faster business technology deployment
Finance	7	Transform **Finance operating model**
	8	Modernize infrastructure through technology solutions and simplify **finance and actuarial processes**, while materially improving **analytics capabilities**
Procurement	9	Create a highly efficient **global procurement and sourcing organization** to leverage our purchasing power, maximize value, minimize risk, and support sustained profitable growth
Real Estate	10	**Optimize portfolio** to ensure it is cost effective, resilient and reflective of global footprint

AIG 200 Costs to Achieve and General Operating Expense (GOE) Benefits

($M)	2020-4Q21 Actual	2021 Actual	2022E	Total	Comments
Investment / Costs to Achieve					
Capitalized assets, not in APTI initially	~$225	~$145	$175	**$400**	Amortized / depreciated in GOE / APTI when IT or capital asset placed into service[1]
Restructuring and Other charges, offset by Gain on Sale, in Net Income	~$420	~$270	$480	**$900**	Modest impact to APTI; primarily related to professional, IT and other restructuring fees, offset by gain on sale on divested entities
Total investment	**~$645**	**~$415**	**$655**	**$1,300**	
Run-rate net GOE savings, cumulative[1]	**~$810**	**~$420**	**$190**		Estimated exit run-rate savings will emerge over a period of time, which began in 2020, as a result of actions taken in the AIG 200 program
Net benefit to APTI	**~$540**	**~$405**			Estimated APTI benefit as a result of actions taken in the AIG 200 program

1) Targets assume estimated amortization / depreciation related to the capitalized assets of ~$10M-$15M and ~$25M-$30M for 2021 and 2022, respectively. Targets assume that the unamortized balance will be expensed at ~$50M per year from 2023-2027 and the remainder will trail off in the periods thereafter.

AIG

General Insurance: Successfully built a stable and profitable underwriting portfolio between 2018 and 2021

- 14 consecutive quarters and 1,120 basis points of cumulative improvement in the General Insurance AYCR, as adjusted between 2Q18 and 4Q21
- Confident in updated guidance for sub-90% AYCR, as adjusted for full year 2022 and reported 89.8% AYCR, as adjusted in 4Q21 and 91.0% for full year 2021
- Global Commercial Lines AYCR, as adjusted has improved 1,820 basis points cumulatively between 2Q18 and 4Q21
- GAAP Combined Ratio cumulative improvement of 1,560 basis points between 2018 and 2021, driven by 690 basis points reduction in CATs and PYD in addition to 870 basis points improvement in AYCR, as adjusted

1) Other adjustments include net realized gains related to economic hedges and other.
2) Interest and dividends include amounts related to commercial mortgage loan prepayments and call and tender income; Life and Retirement annualized yields include yield on collateral related to hedging program.
3) Alternative investment income includes income on hedge funds, private equity funds and affordable housing partnerships.

* Refers to financial measure not calculated in accordance with generally accepted accounting principles (Non-GAAP); definitions and abbreviations of Non-GAAP measures and reconciliations to their closest GAAP measures can be found in this presentation under the heading Glossary of Non-GAAP Financial Measures and Non-GAAP Reconciliations.

4Q20 and 4Q21 noteworthy items

	4Q20			4Q21		
($M, except per share amounts)	APTI	AATI[1]	EPS – Diluted[2]	APTI	AATI[1]	EPS – diluted[2]
CATs excluding General Insurance COVID-19[3]	$377	$298	$0.34	$194	$153	$0.18
General Insurance COVID-19 CATs	178	141	0.16	-	-	-
Reinstatement premiums related to current year catastrophes	(5)	(4)	(0.00)	(2)	(2)	(0.00)
Favorable (unfavorable) PYD[4]	(49)	(39)	(0.04)	42	33	0.04
Investment performance:						
Better than expected alternative investment returns – consolidated[5,6]	491	388	0.45	676	484	0.57
Better/(worse) than expected fair value changes on fixed maturity securities – other accounted under fair value option (FVO)[5]	41	32	0.04	(73)	(58)	(0.07)

1) Computed using a U.S. statutory tax rate of 21%. Adjusted after-tax income attributable to AIG common shareholders (AATI) is derived by excluding the tax-effect of Adjusted pre-tax income (APTI), dividends on preferred stock and noncontrolling interests.
2) Computed using weighted average diluted shares on an AATI basis, which is provided on page 7 of the 4Q21 Financial Supplement.
3) 4Q21 includes $189M of CATs, pre-tax in General Insurance and $5M of CATs, pre-tax in Other Operations primarily related to Blackboard.
4) 4Q21 includes $44M of favorable PYD, pre-tax in General Insurance.
5) The annualized expected rate of return for both 4Q20 and 4Q21 is 6% for alternative investments and 4% for FVO fixed maturity securities, respectively, pre-tax.
6) Presented on a consolidated AIG basis, which consists of General Insurance, Life and Retirement and Other Operations, including consolidation and eliminations.

General Insurance: Global Commercial Lines NPW grew 13%; AYCR, as adjusted improved by 3.1 points in 4Q21

- **General Insurance Calendar Year Combined Ratio** was 92.4, a 10.4 point reduction from 4Q20 primarily due to strong underwriting results across the portfolio, including lower CATs
- **General Insurance AYCR**, as adjusted was 89.8, a 3.1 point improvement from 4Q20 due to improved North America (NA) and International Commercial Lines and NA Personal Insurance underwriting results
- **General Insurance NPW** increased by 7% to $6.0B from 4Q20 (8% on a constant dollar basis) reflecting strong incremental rate improvement, higher renewal retentions and high levels of new business production

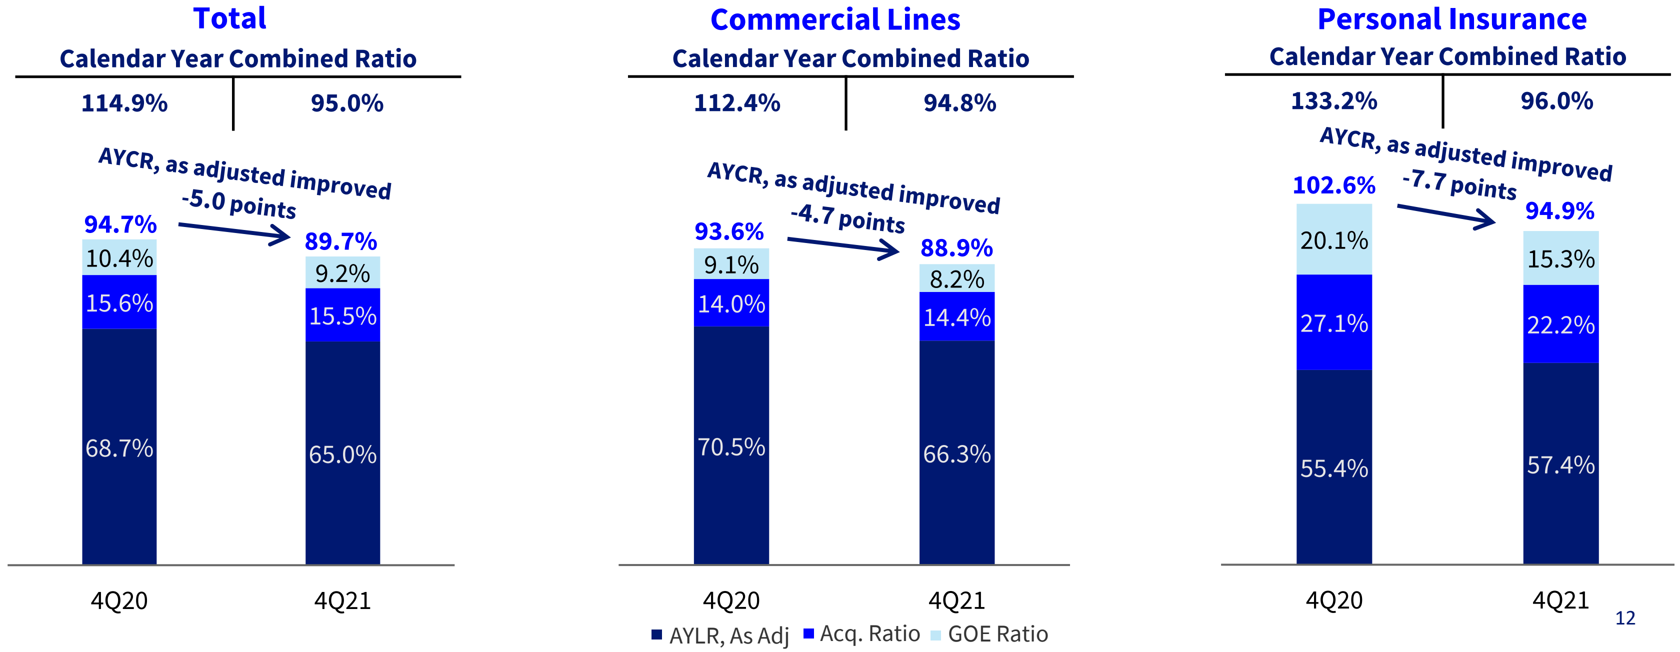
North America Combined Ratios



General Insurance: Strong International Commercial Lines NPW growth of 15% and a 2.5 point improvement in Commercial Lines AYCR, as adjusted

- **International Commercial Lines NPW** grew 15% (16% on a constant dollar basis) compared to 4Q20, reflecting strong incremental rate improvement, higher renewal retentions and strong new business production
- **International Personal Insurance NPW** decreased 9% (5% on a constant dollar basis) compared to 4Q20, reflecting underwriting actions taken to improve the portfolio mix and to maintain rate adequacy, partially offset by growth in Personal Accident and Health, and Travel due to a rebound in travel activity
- **International Commercial Lines AYCR, as adjusted,** improved 2.5 points primarily from expense discipline, enhanced risk selection, and changes in business mix
- **International Personal Insurance AYCR, as adjusted,** was flat; benefiting from lower operating expenses, offset by higher acquisition costs
- **CATs** of $23M primarily related to multi-state tornadoes; vs. $68M in 4Q20
- Favorable **PYD** of $15M with $16M favorable PYD in Personal Insurance offset by $1M unfavorable PYD in Commercial Lines

($M)	4Q20	4Q21
Net premiums written	**$3,204**	**$3,319**

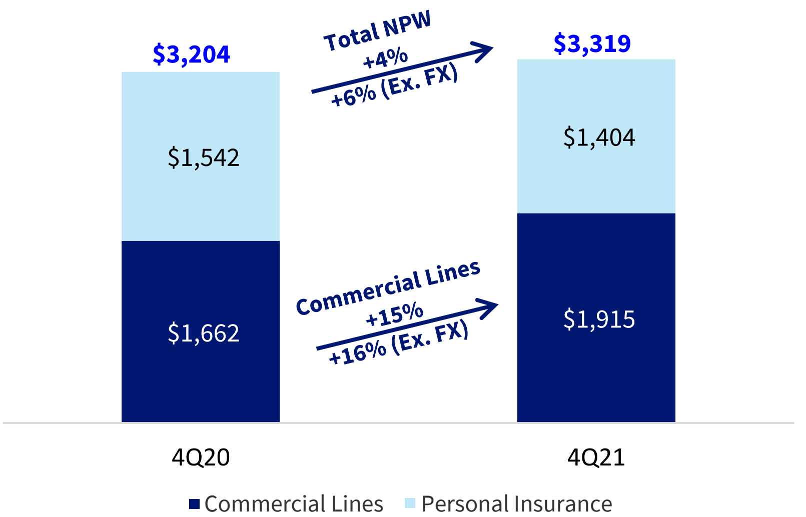
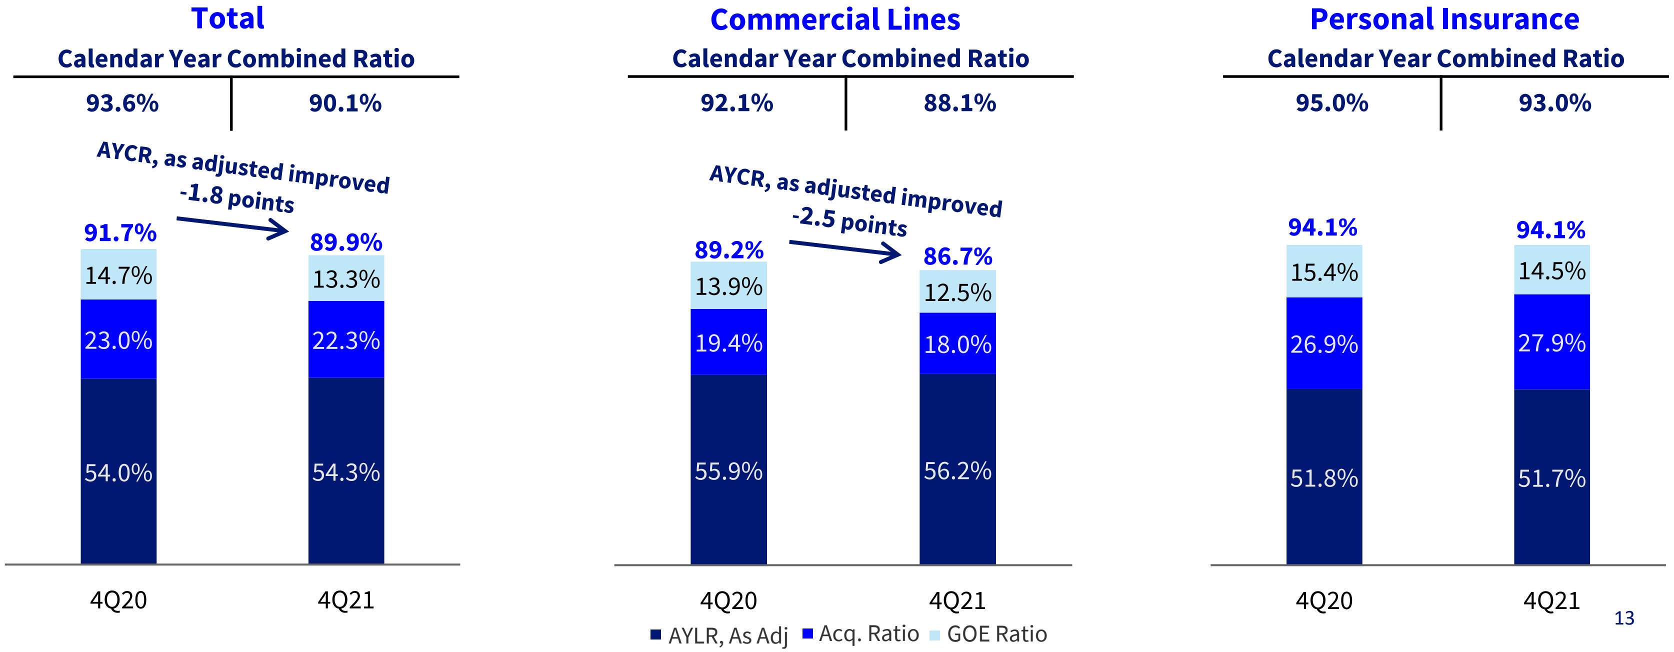
International Net Premiums Written ($M)



International Combined Ratios

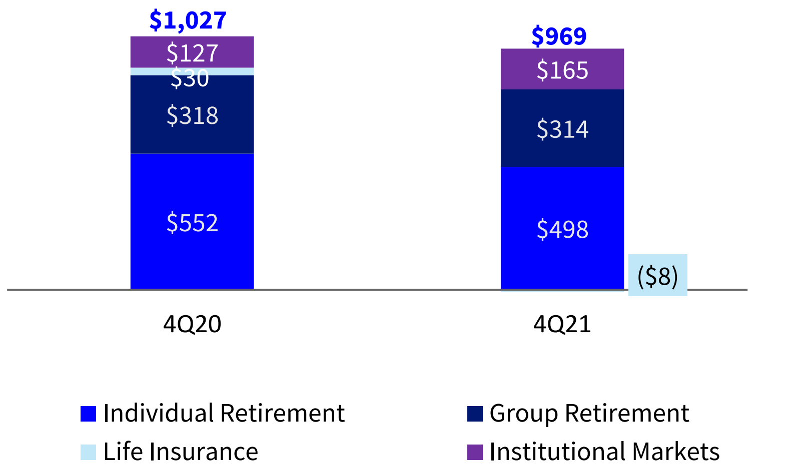


Life and Retirement: Adverse mortality and lower yield enhancements, offset by favorable alternative investment income and fee income

- **APTI** is lower primarily due to:
  - Unfavorable mortality;
  - Increases in deferred policy acquisition costs amortization; and
  - Lower fair value option bond and call and tender income;
  - these APTI decreases were partially offset by higher alternative investment income and higher fee income
- **Premiums and deposits** benefited from improved Fixed, Index and Variable Annuity sales as well as higher pension risk transfer activity

1) Return on adjusted segment common equity is on an annualized basis.

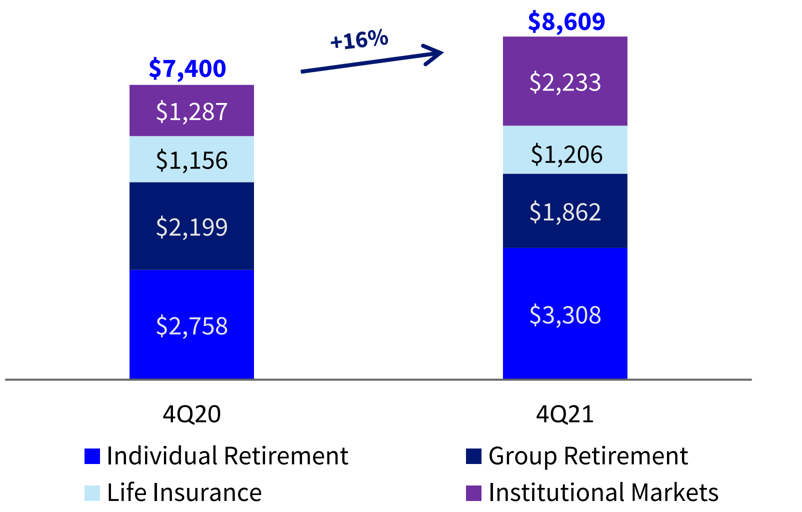
Adjusted Pre-tax Income (APTI) ($M)



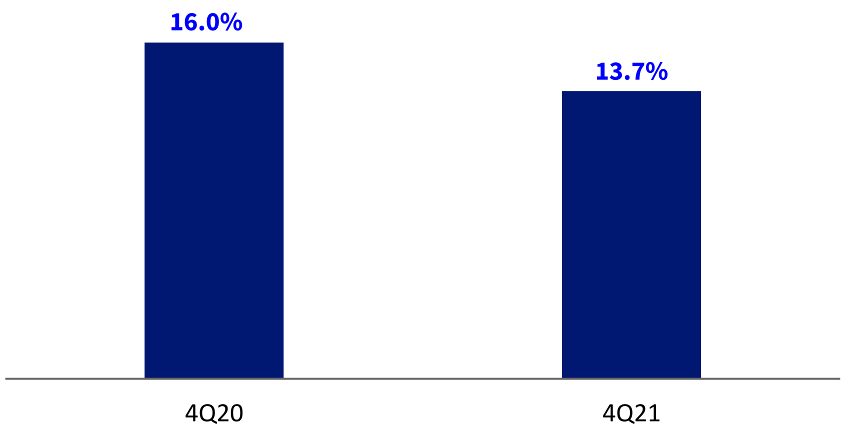
Noteworthy Items ($M)

	4Q20	4Q21	Variance
Return on alternative investments	293	374	81
Other yield enhancements	206	136	(70)
Includes:			
Fair value changes on Fixed Maturity Securities- Other accounted under FVO	19	(5)	(24)
All other yield enhancements	187	141	(46)

Premiums and Deposits ($M)



Return on adjusted segment common equity[1]

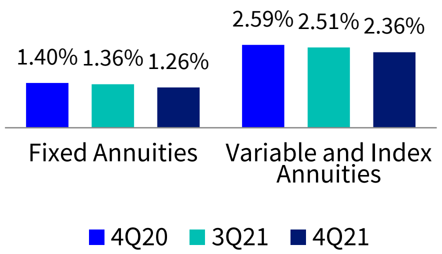


Life and Retirement: Solid sales growth in Individual Retirement; elevated Group Retirement net outflows due to lower group acquisitions, higher group surrenders and individual withdrawals as a result of higher customer asset balances

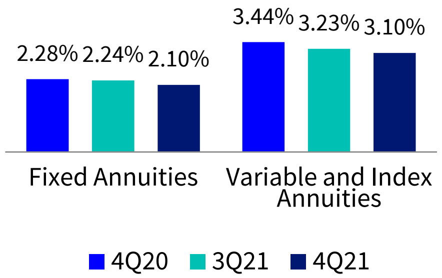
Individual Retirement

Premiums and Deposits ($M)	Net Flows ($M)	Assets Under Administration ($B)	APTI ($M)
$3,308 (+20% vs. 4Q20)	($34) n.m.	$158.6 (+2% vs. 4Q20)	$498 (-10% vs. 4Q20)

Base Net Investment Spread



Total Net Investment Spread



4Q21 vs 4Q20 APTI reflects

Favorable impacts from:

- Higher alternative investments income and higher fee income

Unfavorable impacts from:

- Higher deferred acquisition cost / sales inducement amortization
- Lower call and tender income and fair value option bond income

Other Key Metrics

Favorable impacts from:

- Growth of assets under administration

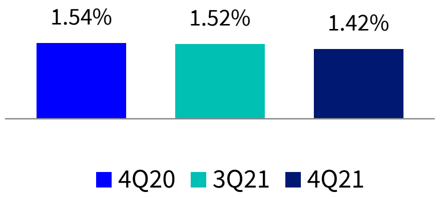
Unfavorable impacts from:

- Base net investment spread compression

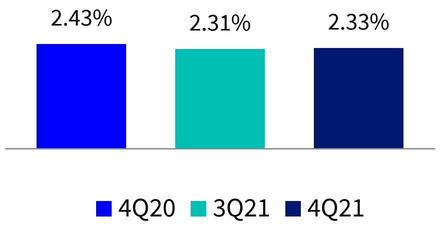
Group Retirement

Premiums and Deposits ($M)	Net Flows ($M)	Assets Under Administration ($B)	APTI ($M)
$1,862 (-15% vs. 4Q20)	($1,072) n.m.	$140.0 (+8% vs. 4Q20)	$314 (-1% vs. 4Q20)

Base Net Investment Spread



Total Net Investment Spread



4Q21 vs 4Q20 APTI reflects

Favorable impacts from:

- Higher alternative investments income and higher fee income

Unfavorable impacts from:

- Higher deferred acquisition cost / sales inducement amortization and reserves
- Lower call and tender income and fair value option bond income

Other Key Metrics

Favorable impacts from:

- Growth of assets under administration
- Higher surrenders of high guarantee minimum interest rate business

Unfavorable impacts from:

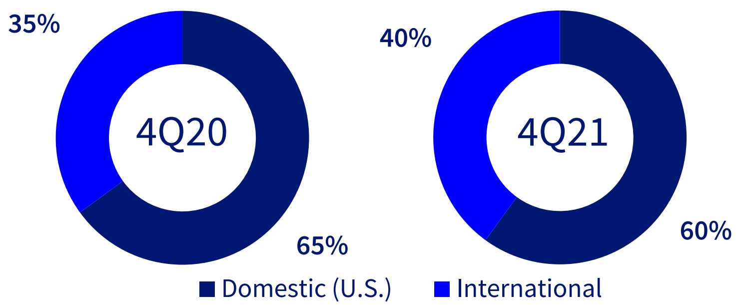
- Base net investment spread compression

Life and Retirement: Life Insurance shows solid international life sales, but continues to experience adverse mortality; Institutional Markets had strong reserve growth

Life Insurance

New Business Sales ($M)	Premiums and Deposits ($M)	APTI ($M)
$108 (+4% vs. 4Q20)	$1,206 (+4% vs. 4Q20)	($8) n.m.

New Business Sales Mix



4Q21 vs 4Q20 APTI reflects

Favorable impacts from:

- Higher alternative investments income

Unfavorable impacts from:

- Adverse mortality, albeit lower than high water mark at 1Q21

Other Key Metrics

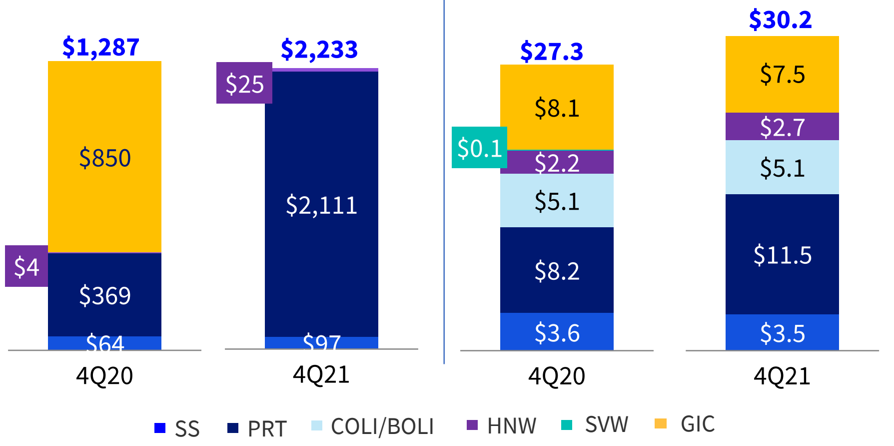
Favorable impacts from:

- Premiums and deposits continue to benefit from solid international life sales

Institutional Markets

APTI ($M)	$165 (+30% vs. 4Q20)

Premiums and Deposits ($M) **GAAP Reserves ($B)**



4Q21 vs 4Q20 APTI reflects

Favorable impacts from:

- Higher alternative investments income
- Higher call and tender income
- Higher base net investment income driven by reserve growth
- Favorable year-over-year impact from non-recurring items

Other Key Metrics

Favorable impacts from:

- Continued year-over-year reserve growth, notably in PRT business

Definitions: SS = Structured Settlements | PRT = Pension Risk Transfer | COLI/BOLI = Corporate and Bank-owned Life Insurance | HNW = High Net Worth | SVW = Stable Value Wrap | GIC = Guaranteed Investment Contracts

Other Operations: APTL improved due to higher NII and lower interest expense

- **Other Operations** APTL was $648M in 4Q21, including $470M of reductions from consolidation and eliminations, compared to APTL of $720M, including $292M of reductions from consolidation and eliminations, in 4Q20; the increase in consolidation and eliminations APTL reflects the elimination of the General Insurance and Life and Retirement segment net investment income on their investment in consolidated investment entities that is accounted for as realized capital gains or losses in consolidation
- Before consolidation and eliminations, the decrease in APTL reflects higher net investment income, primarily from realized gains from property sales in the real estate portfolio, and lower corporate interest expense resulting from 2021 debt redemption and repurchase activity, partially offset by higher corporate GOE including increased in performance-based employee compensation

($M)	4Q20	4Q21
Corporate and Other	($519)	($577)
Asset Management	91	399
Adjusted pre-tax loss before consolidation and eliminations	**($428)**	**($178)**
Consolidation and eliminations:

Glossary of Non-GAAP Financial Measures and Non-GAAP Reconciliations

Glossary of Non-GAAP Financial Measures

Glossary of Non-GAAP

Throughout this presentation, we present our financial condition and results of operations in the way we believe will be most meaningful and representative of our business results. Some of the measurements we use are "Non-GAAP financial measures" under Securities and Exchange Commission rules and regulations. GAAP is the acronym for generally accepted accounting principles in the United States. The non-GAAP financial measures we present may not be comparable to similarly-named measures reported by other companies. The reconciliations of such measures to the most comparable GAAP measures in accordance with Regulation G are included within the relevant tables or in the Fourth Quarter 2021 Financial Supplement available in the Investor Information section of AIG's website, www.aig.com.

We may use certain non-GAAP operating performance measures as forward-looking financial targets or projections. These financial targets or projections are provided based on management's estimates. The most directly comparable GAAP financial targets or projections would be heavily dependent upon results that are beyond management's control and the outcome of these items could be significantly different than management's estimates. Therefore, we do not provide quantitative reconciliations for these financial targets or projections as we cannot predict with accuracy future actual events (e.g., catastrophe losses) and impacts from changes in macro-economic market conditions, including the interest rate environment (e.g. net reserve discount change and returns on alternative investments).

We use the following operating performance measures because we believe they enhance the understanding of the underlying profitability of continuing operations and trends of our business segments. We believe they also allow for more meaningful comparisons with our insurance competitors. When we use these measures, reconciliations to the most comparable GAAP measure are provided on a consolidated basis.

- **Adjusted Pre-tax Income (APTI)** is derived by excluding the items set forth below from income from continuing operations before income tax. This definition is consistent across our segments. These items generally fall into one or more of the following broad categories: legacy matters having no relevance to our current businesses or operating performance; adjustments to enhance transparency to the underlying economics of transactions; and measures that we believe to be common to the industry. APTI is a GAAP measure for our segments. Excluded items include the following:
  - changes in fair value of securities used to hedge guaranteed living benefits;
  - changes in benefit reserves and deferred policy acquisition costs (DAC), value of business acquired (VOBA), and deferred sales inducements (DSI) related to net realized gains and losses;
  - changes in the fair value of equity securities;
  - net investment income on Fortitude Re funds withheld assets held by AIG in support of Fortitude Re's reinsurance obligations to AIG post deconsolidation of Fortitude Re (Fortitude Re funds withheld assets);
  - following deconsolidation of Fortitude Re, net realized gains and losses on Fortitude Re funds withheld assets;
  - loss (gain) on extinguishment of debt;
  - all net realized gains and losses except earned income (periodic settlements and changes in settlement accruals) on derivative instruments used for non-qualifying (economic) hedging or for asset replication. Earned income on such economic hedges is reclassified from net realized gains and losses to specific APTI line items based on the economic risk being hedged (e.g. net investment income and interest credited to policyholder account balances);
  - income or loss from discontinued operations;
  - net loss reserve discount benefit (charge);
  - pension expense related to lump sum payments to former employees;
  - net gain or loss on divestitures;
  - non-operating litigation reserves and settlements;
  - restructuring and other costs related to initiatives designed to reduce operating expenses, improve efficiency and simplify our organization;
  - the portion of favorable or unfavorable prior year reserve development for which we have ceded the risk under retroactive reinsurance agreements and related changes in amortization of the deferred gain;
  - integration and transaction costs associated with acquiring or divesting businesses;
  - losses from the impairment of goodwill; and
  - non-recurring costs associated with the implementation of non-ordinary course legal or regulatory changes or changes to accounting principles.
- **Adjusted After-tax Income attributable to AIG Common Shareholders (AATI)** is derived by excluding the tax effected adjusted pre-tax income (APTI) adjustments described above, dividends on preferred stock, noncontrolling interest on net realized gains (losses), other non-operating expenses and the following tax items from net income attributable to AIG:
  - deferred income tax valuation allowance releases and charges;
  - changes in uncertain tax positions and other tax items related to legacy matters having no relevance to our current businesses or operating performance; and
  - net tax charge related to the enactment of the Tax Cuts and Jobs Act (Tax Act).

Glossary of Non-GAAP Financial Measures

Glossary of Non-GAAP

- **Book Value per Common Share, Excluding Accumulated Other Comprehensive Income (Loss) (AOCI) adjusted for the cumulative unrealized gains and losses related to Fortitude Re funds withheld assets and Deferred Tax Assets (DTA) (Adjusted Book Value per Common Share)** is used to show the amount of our net worth on a per-common share basis after eliminating items that can fluctuate significantly from period to period including changes in fair value of AIG's available for sale securities portfolio, foreign currency translation adjustments and U.S. tax attribute deferred tax assets. This measure also eliminates the asymmetrical impact resulting from changes in fair value of our available for sale securities portfolio wherein there is largely no offsetting impact for certain related insurance liabilities. In addition, we adjust for the cumulative unrealized gains and losses related to Fortitude Re funds withheld assets since these fair value movements are economically transferred to Fortitude Re. We exclude deferred tax assets representing U.S. tax attributes related to net operating loss carryforwards and foreign tax credits as they have not yet been utilized. Amounts for interim periods are estimates based on projections of full-year attribute utilization. As net operating loss carryforwards and foreign tax credits are utilized, the portion of the DTA utilized is included in these book value per common share metrics. Adjusted Book Value per Common Share is derived by dividing Total AIG common shareholders' equity, excluding AOCI adjusted for the cumulative unrealized gains and losses related to Fortitude Re funds withheld assets, and DTA **(Adjusted Common Shareholders' Equity)**, by total common shares outstanding.
- **Book Value per Common Share, Excluding Goodwill, Value of Business Acquired (VOBA), Value of Distribution Channel Acquired (VODA), Other Intangible Assets, AOCI adjusted for the cumulative unrealized gains and losses related to Fortitude Re funds withheld assets, and Deferred Tax Assets (DTA) (Adjusted Tangible Book Value per Common Share)** is used to provide more accurate measure of the realizable value of shareholder on a per-common share basis. Adjusted Tangible Book Value per Common Share is derived by dividing Total AIG common shareholders' equity, excluding intangible assets, AOCI adjusted for the cumulative unrealized gains and losses related to Fortitude Re funds withheld assets, and DTA **(Adjusted Tangible Common Shareholders' Equity)**, by total common shares outstanding.
- **AIG Return on Common Equity (ROCE) – Adjusted After-tax Income Excluding AOCI adjusted for the cumulative unrealized gains and losses related to Fortitude Re funds withheld assets and DTA (Adjusted Return on Common Equity)** is used to show the rate of return on common shareholders' equity. We believe this measure is useful to investors because it eliminates items that can fluctuate significantly from period to period, including changes in fair value of our available for sale securities portfolio, foreign currency translation adjustments and U.S. tax attribute deferred tax assets. This measure also eliminates the asymmetrical impact resulting from changes in fair value of our available for sale securities portfolio wherein there is largely no offsetting impact for certain related insurance liabilities. In addition, we adjust for the cumulative unrealized gains and losses related to Fortitude Re funds withheld assets since these fair value movements are economically transferred to Fortitude Re. We exclude deferred tax assets representing U.S. tax attributes related to net operating loss carryforwards and foreign tax credits as they have not yet been utilized. Amounts for interim periods are estimates based on projections of full-year attribute utilization. As net operating loss carryforwards and foreign tax credits are utilized, the portion of the DTA utilized is included in Adjusted Return on Common Equity. Adjusted Return on Common Equity is derived by dividing actual or annualized adjusted after-tax income attributable to AIG common shareholders by average Adjusted Common Shareholders' Equity.
- **General Insurance and Life and Retirement Adjusted Segment Common Equity** is based on segment equity adjusted for the attribution of debt and preferred stock (Segment Common Equity) and is consistent with AIG's Adjusted Common Shareholders' Equity definition.
- **General Insurance and Life and Retirement Return on Adjusted Segment Common Equity – Adjusted After-tax Income (Return on Adjusted Segment Common Equity)** is used to show the rate of return on Adjusted Segment Common Equity. Return on Adjusted Segment Common Equity is derived by dividing actual or annualized Adjusted After-tax Income by Average Adjusted Segment Common Equity.
- **Adjusted After-tax Income Attributable to General Insurance and Life and Retirement** is derived by subtracting attributed interest expense, income tax expense and attributed dividends on preferred stock from APTI. Attributed debt and the related interest expense and dividends on preferred stock are calculated based on our internal allocation model. Tax expense or benefit is calculated based on an internal attribution methodology that considers among other things the taxing jurisdiction in which the segments conduct business, as well as the deductibility of expenses in those jurisdictions.

Glossary of Non-GAAP Financial Measures

Glossary of Non-GAAP

- **Adjusted Revenues** exclude Net realized gains (losses), income from non-operating litigation settlements (included in Other income for GAAP purposes) and changes in fair value of securities used to hedge guaranteed living benefits (included in Net investment income for GAAP purposes). Adjusted revenues is a GAAP measure for our segments.
- **Premiums and deposits:** includes direct and assumed amounts received and earned on traditional life insurance policies, group benefit policies and life-contingent payout annuities, as well as deposits received on universal life, investment-type annuity contracts, Federal Home Loan Bank (FHLB) funding agreements and mutual funds. We believe the measure of premiums and deposits is useful in understanding customer demand for our products, evolving product trends and our sales performance period over period.
- **Ratios:** We, along with most property and casualty insurance companies, use the loss ratio, the expense ratio and the combined ratio as measures of underwriting performance. These ratios are relative measurements that describe, for every $100 of net premiums earned, the amount of losses and loss adjustment expenses (which for General Insurance excludes net loss reserve discount), and the amount of other underwriting expenses that would be incurred. A combined ratio of less than 100 indicates underwriting income and a combined ratio of over 100 indicates an underwriting loss. Our ratios are calculated using the relevant segment information calculated under GAAP, and thus may not be comparable to similar ratios calculated for regulatory reporting purposes. The underwriting environment varies across countries and products, as does the degree of litigation activity, all of which affect such ratios. In addition, investment returns, local taxes, cost of capital, regulation, product type and competition can have an effect on pricing and consequently on profitability as reflected in underwriting income and associated ratios.
- **Accident year loss and Accident year combined ratios, as adjusted (Accident year loss ratio, ex-CAT and Accident year combined ratio, ex-CAT):** both the accident year loss and accident year combined ratios, as adjusted, exclude catastrophe losses (CATs) and related reinstatement premiums, prior year development, net of premium adjustments, and the impact of reserve discounting. Natural catastrophe losses are generally weather or seismic events, in each case, having a net impact on AIG in excess of $10 million and man-made catastrophe losses, such as terrorism and civil disorders that exceed the $10 million threshold. We believe that as adjusted ratios are meaningful measures of our underwriting results on an ongoing basis as they exclude catastrophes and the impact of reserve discounting which are outside of management's control. We also exclude prior year development to provide transparency related to current accident year results.

  Underwriting ratios are computed as follows:

  a) Loss ratio = Loss and loss adjustment expenses incurred ÷ Net premiums earned (NPE)

  b) Acquisition ratio = Total acquisition expenses ÷ NPE

  c) General operating expense ratio = General operating expenses ÷ NPE

  d) Expense ratio = Acquisition ratio + General operating expense ratio

  e) Combined ratio = Loss ratio + Expense ratio

  f) CATs and reinstatement premiums = [Loss and loss adjustment expenses incurred – (CATs)] ÷ [NPE +/(-) Reinstatement premiums related to catastrophes] – Loss ratio

  g) Accident year loss ratio, as adjusted (AYLR ex-CAT) = [Loss and loss adjustment expenses incurred – CATs – PYD] ÷ [NPE +/(-) Reinstatement premiums related to catastrophes +/(-) Prior year premiums + Adjustment for ceded premium under reinsurance contracts related to prior accident years]

  h) Accident year combined ratio, as adjusted (AYCR ex-CAT) = AYLR ex-CAT + Expense ratio

  i) Prior year development net of reinsurance and prior year premiums = [Loss and loss adjustment expenses incurred – CATs – PYD] ÷ [NPE +/(-) Reinstatement premiums related to catastrophes +/(-) Prior year premiums] – Loss ratio – CATs and reinstatement premiums ratio.

Results from discontinued operations are excluded from all of these measures.

Non-GAAP Reconciliations-Adjusted Pre-tax and After-tax Income - Consolidated

(in millions)	Quarterly 4Q20	Quarterly 4Q21	Twelve Months Ended December 31, 2020	Twelve Months Ended December 31, 2021

(a) The three months ended December 31, 2020 as well as twelve months ended December 31, 2021 and 2020 include the completion of audit activity by the Internal Revenue Service. Twelve months ended December 31, 2020 includes the write-down of net operating loss deferred tax assets in certain foreign jurisdictions, which is offset by valuation allowance release.
(b) The three months ended December 31, 2020 as well as twelve months ended December 31, 2021 and 2020 include valuation allowance established against a portion of certain tax attribute carryforwards of AIG's U.S. federal consolidated income tax group, as well as valuation allowance changes in certain foreign jurisdictions.
(c) Represents activity subsequent to the deconsolidation of Fortitude Re on June 2, 2020.
(d) Includes all net realized gains and losses except earned income (periodic settlements and changes in settlement accruals) on derivative instruments used for non-qualifying (economic) hedging or for asset replication and net realized gains and losses on Fortitude Re funds withheld assets.
(e) Includes the impact of non-U.S. tax rates which differ from the applicable U.S. statutory tax rate and tax-only adjustments.
(f) For the year ended December 31, 2021, noncontrolling interests include realized non-operating gains on consolidated investment entities. Prior to June 2, 2020, noncontrolling interests was primarily due to the 19.9 percent investment in Fortitude by an affiliate of The Carlyle Group L.P. (Carlyle), which occurred in the fourth quarter of 2018. Carlyle was allocated 19.9 percent of Fortitude Holdings' standalone financial results through the June 2, 2020 closing date of the Majority Interest Fortitude Sale. Fortitude Holdings' results were mostly eliminated in AIG's consolidated income from continuing operations given that its results arose from intercompany transactions. Noncontrolling interests was calculated based on the standalone financial results of Fortitude Holdings. The most significant component of Fortitude Holdings' standalone results was the change in fair value of the embedded derivatives which changes with movements in interest rates and credit spreads, and which was recorded in net realized gains and losses of Fortitude Holdings. In accordance with AIG's adjusted after-tax income definition, realized gains and losses are excluded from noncontrolling interests. Subsequent to the Majority Interest Fortitude Sale, AIG owns 3.5 percent of Fortitude Holdings and no longer consolidates Fortitude Holdings in its financial statements as of such date. The minority interest in Fortitude Holdings is carried at cost within AIG's Other invested assets, which was $100 million as of December 31, 2021.
(g) For the three-month period ended December 31, 2021, an option for Blackstone to exchange all or a portion of its ownership interest in SAFG for AIG common shares was anti-dilutive and are therefore excluded from the calculation of adjusted after-tax income per diluted share attributable to AIG common shareholders. Because we reported net losses attributable to AIG common shareholders for the three and twelve months ended December 31, 2020, all common stock equivalents are anti-dilutive and are therefore excluded from the calculation of diluted shares and diluted per share amounts.
